1. Applicant's election with traverse of group II in the reply filed on 07 Dec 05 is acknowledged. The traversal is on the ground(s) that the scope of the independent claims had not changed. This is not found persuasive because claim 13 added the limitation that the scroll collar is positioned on the housing. Furthermore, claim 19 added that the scroll collar is cylindrical. Claims 21 and 22 also had new limitations not previously searched so specifically. Of course, if an independent claim is found to be allowable, claims dependent therefrom can be rejoined.

Claims 4,7-12,15,17,18,21 and 22 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected group, there being no allowable generic or linking claim.

The requirement is still deemed proper and is therefore made FINAL.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-3,5,6,13,14,16,19 and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Phillips et al '645, who shows a saw with all of the recited limitations including a support structure (e.g. 130) and a cylindrical scroll collar (adjacent portion of 150) having a resistance O-ring (153).

4. Claims 1-3,13,14,19 and 20 are rejected under 35 U.S.C. 102(e) as being anticipated by Albrightson '339, who shows a saw with all of the recited limitations including a support structure (e.g. 51) and a cylindrical scroll collar (e.g. 13).

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Made of record but not relied on are patents to James and Kivela showing pertinent saws.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
